

Me, Myself & I

I sat down at my desk again
Turned a page and then picked up a pen
I hummed a tune I heard inside my head
Could have stopped there but wrote it down instead.

Me, Myself and I
When you do your best it won't take long
Me, Myself and I
To smile and hum when you hear this song.
Me, Myself and I
If you only knew
You're incredible it's inside of you

Once upon a time there was a bird
Who said, things he didn't mean and silly words
Then a song played on the radio
This is exactly what he heard

Me, Myself and I
When you do your best it won't take long
Me, Myself and I
To smile and hum when you hear this song.
Me, Myself and I
If you only knew
You're incredible it's inside of you.

When a bird builds a nest
They never do give in
These talented architects
If nests blow down, they'll build again

I have a friend who likes to twirl and hop
She is a frog and I don't want her to stop
She auditioned for the circus
Now she dances under the big top

Me, Myself and I
When you do your best it won't take long
Me, Myself and I
To smile and hum when you hear this song.
Me, Myself and I
If you only knew
You're incredible it's inside of you.
Me, myself and I
You, yourself and you,
See what you can do
